

Benefits for asylum seekers

You are a refugee and have been living in Germany for a long time – but you have not been granted refugee status.

You receive benefits – but less money than a recognized refugee gets.

You have started a family in Germany, but your child hasn't received benefits for months?

You are paid just "pocket money" in order to make you leave voluntarily?

Then something is wrong.

We want to help you get the benefits you are entitled to.

You fled from your country because there was no justice there. That should be different in Germany.

We are a group of lawyers specializing in social assistance law. We work all over Germany, so it doesn't matter where you live.

You don't need an appointment, you can just send us your benefit notice electronically. We can make sure that you receive the money you are entitled to.

There is no risk for you. It will not impact your stay negatively if we help you claim what you are legally entitled to.

And you don't have to pay for our work, because we can apply for legal aid under social law.

You don't need courage – just call us or contact us by email or text message. We are here for you!
