Civil Fleet - Sticker Album

Moin!

We have an idea and ask you if you and your organization would like to take part. In fact, it doesn't take much from you, a few pictures and if you like texts in English, which you probably already have in your public relations work. So made easy for you and a win for all of us.

Zusammenland gemeinnützige UG

We are planning a sticker album for the Civil Fleet Sea Rescue! You may know this from the big brand Panini. We want to do it ourselves to create more publicity and to acquire donations. To take you with us, here is our plan:

- * DIN A4 album
- * first edition: 250 pieces
- * 140 different motives
- * printing is as climate-neutral and resource-saving as possible!

Your text would be about your organization and your ships. Your pictures as stickers and for the backgrounds.

If your organization wants to sell the sticker album and stickers themselves, we want to make a 50/50 agreement with you. That would be an added benefit for all of us! Attention and donation receipt!

What else you can do: We need some money for production. If your organization wants to become a sponsor, we will reserve a spot for you on the back outside. Contact us directly and we will discuss the details.

We like our idea and are happy if your organization participates with texts and pictures. We also understand if it doesn't fit right now. Then we will still record your organization and your ships, draw pictures and publish texts ourselves. All in the interests of visibility and the civil fleet! What has been achieved here for years cannot only be shown in the news from time to time.

We would be very happy to receive feedback, preferably by January 15th, 2023, so that we can plan well.

Best regards!

Marie and Raphael
